B

autiful stables dating back circa 1823 have been converted into stunning cottages featuring Residence 9 windows and doors. Residence 9 was chosen by the homeowners following a recommendation and are pleased with the results.

Residence 9 is a window and door system designed to authentically replicate 19th Century timber designs. The traditionally elegant flush exterior and stylish decorative interior create that classic aesthetic design.

"We moved into our property, after numerous discussions, we decided on R9, due to the period aesthetics, and wow, did they fulfil what we needed, and in no small part due to Andy and the team at Stedek in helping us decide and assist in getting the specification right."

From start to finish Andy and his team, Karl and the site team manufactured and installed our R9 windows and doors that look incredible and provide the performance we wanted for an older property."
